

CNC Capabilities

Create a Memorable Project in Michael's Woodshop

The CNC machine in Michael's Woodshop can be used to enhance, personalize or customize your projects. Please review the categories below for several simple ways to use the CNC to create memorable shop projects.

For other uses of the CNC machine, please contact the volunteer team at MichaelsWoodshop.CWBS@gmail.com. As Michael's Woodshop serves the NCAC Scouting community, the CNC machine may only be used for Scouting related activities.
